What We Do

SCA Health has evolved to support physician specialists more holistically in many aspects of patient care:

- / We connect patients to physicians in new and differentiated ways.
- / We have pioneered a physician-led, MSO-model of practice management that supports physician independence.
- / We lead the industry in value-based solutions.
- / We help physicians beyond surgical procedures, including anesthesia and ancillaries

Our Businesses

Today, SCA Health has a dynamic group of physician-driven, specialty care business lines that allows us to customize solutions for our partners:

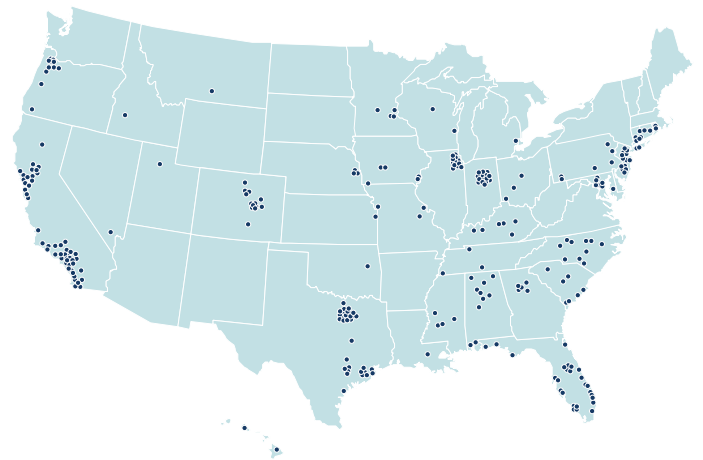

- / Ambulatory Surgical Centers: Our core business delivers high-quality, lower cost care to more than 1 million patients a year.
- / The physician-led, professionally managed Optum Specialty Practices offers physicians a new business model that supports their growth.
- / Surgical Management Solutions helps employers and their employees connect with local surgeons and facilities
